Stop Doing:

None

Start Doing:

- Finalize decisions and designs early on in sprint

Continue Doing:

- Good communication on discord
- Mention in communication channel when you have a pull request
- Cite your sources for code snippets
- Make tasks more specific and detailed
- Work on the project for at least 30 minutes as a group after each Scrum meeting
- Assign one task initially at a time rather than multiple tasks at a time
- Use points rather than hours as a better representation of time spent (0-20 scale)
